- favour contact between companies and educational entities in general with the investment community, in order to explore potential investment, commercial or strategic agreements and encourage startups to participate in the enlightED Awards.

In this new 2021 edition, the Organisation continues with its commitment to innovation and entrepreneurship, increasing the focus of the **enlightED Awards** to four categories, thus opening the contest to:

The enlightED Awards are held within the framework of this edition of the **enlightED Hybrid Edition 2021**, now in its fourth edition, and will be organised as a worldwide conference gathering leading international experts in education, technology and innovation in order to share solutions to the challenges caused by Covid-19 in learning and employment in our societies, and to reach practical conclusions through a large-scale debate on education in the digital era.

In summary, this edition of the enlightED Awards seeks to recognise and give visibility to those organisations and institutions that have promoted innovative projects to improve the educational and training environment, with the aim of understanding new trends and being able to respond to some of the challenges and problems of education, work, entrepreneurship and learning.
